

PROJECT BUILD

Complete GoHighLevel CRM + Automation System **for a Roofing Company**

Custom Dashboard

Smart Lists

Lead Tagging

Stale Lead Detection

Automated Follow-Up

CRM DASHBOARD + SMART LISTS

The System

Custom CRM dashboard tracking pipeline value, jobs won, appointments booked, and total leads at a glance. Smart lists segment contacts into Follow Up Today, Hot Leads Today, High Value Pipeline, and No Contact 48 Hours so the team always knows exactly who to prioritise.

CUSTOM FIELDS

Data Structure

Custom fields configured for every lead. Every contact has full context from the moment they enter the system.

Job Value Estimate

Lead Quality

Lead Source

Contact Type

Follow-Up Date

Last Contacted Date

Reactivation Campaign Date

The screenshot shows a CRM interface with a sidebar on the left containing navigation links like 'Settings', 'My Business', 'Business Profile', 'Billing', 'My Staff', 'Opportunities & Pipelines', 'Calendars', 'Business Services', 'Email Services', 'Phone System', 'WhatsApp', 'Other Settings', and 'Objects'. The main area displays a table of custom fields for 'Contact' objects. The table has columns for 'Field Name', 'Object', 'Folder', 'Unique Key', and 'Created On'. The fields listed are: Follow Up Date, Job Value Estimate, Lead Notes, Reactivation Campaign Date, Contact Type, Lead Source, Lead Quality, and Last Contacted Date. Each field has a unique key and a creation timestamp.

Field Name	Object	Folder	Unique Key	Created On
Follow Up Date	Contact	Contact	{{ contact.follow_up_date }}	4/19/2026 at 6:12 AM
Job Value Estimate	Contact	Contact	{{ contact.job_value_estimate }}	4/19/2026 at 6:13 AM
Lead Notes	Contact	Contact	{{ contact.lead_notes }}	4/19/2026 at 6:14 AM
Reactivation Campaign Date	Contact	Contact	{{ contact.reactivation_campaign_date }}	4/20/2026 at 7:24 AM
Contact Type	Contact	Contact	{{ contact.type }}	4/14/2026 at 10:18 PM
Lead Source	Contact	Contact	{{ contact.lead_source }}	4/19/2026 at 6:09 AM
Lead Quality	Contact	Contact	{{ contact.lead_quality }}	4/19/2026 at 6:11 AM
Last Contacted Date	Contact	Contact	{{ contact.last_contacted_date }}	4/19/2026 at 6:11 AM

AUTOMATIONS

Automation

Two automated workflows running on autopilot. Two layers. No lead forgotten.

3-Day Stale Lead Detection

If a lead sits in New Lead for 3 days, the system sends an internal notification, creates a follow-up task, and tags the contact as stale.

14-Day Reactivation Trigger

If the lead is still untouched after 7 more days, a second workflow tags it for reactivation or removal.
